

# ELECTRONIC CODE SWITCH

CURTIS

PART NUMBER 18442067

## DESCRIPTION

The Electronic Code Switch is designed for safe machine control and to help prevent unauthorized access of the machine. If a machine is taken out of service, it is possible to block all functions except for the master code to reactivate the device.

## APPLICATION

The Electronic Code Switch is ideal for: forklift trucks, tow tractors, golf carts, IC engine vehicles, stationary equipment, pedestrian vehicles, aerial platforms, plant hire, sweepers, agricultural equipment, turfcare equipment, and Scooters.

## FEATURES

- Can be used as a simple switch without PIN codes, for optimal machine maintenance and troubleshooting.
- Up to 99 individual access codes.
- Master code for supervisor function.
- Last user ID function allows last operator to be easily identified.
- No interference with guidance or data systems.
- Automatic vehicle switch off (after 3 minutes inactivity).
- Totally maintenance free.
- Improved vehicle security.
- 2 Bolt Fixings.

## SPECIFICATIONS

- Operating and Storage Temperature Range:  $-40^{\circ}\text{C}$  to  $+85^{\circ}\text{C}$ .
- 12 – 120 VDC.
- 6 Amp continuous relay (10 Amp for 5 sec.).
- Low-power consumption 10mA (60mA relay engage).

## Meets or complies with relevant US and International Regulations

- Protected to IP65
- RoHs Compliant
- UL Recognized Component Status
- **CE**
