Color Vehicle Instruments

enGage® VI & VII

Can Color Instrument

The Curtis enGage® VI & VII display is a microprocessor based, programmable, CAN compatible instrument with full Input/Output capability and can be used to display information in a wide variety of on- and off-road electric vehicle applications, including material handling, industrial, utility, and recreational. The Curtis enGage™ VI and VII color displays differentiate your industrial vehicle by providing meaningful system information in vibrant color when you need it. With the ability to display video from cameras and controller data, diagnostics and error codes, the enGage™ VI and VII are the easy-to-integrate, reliable and highly functional solution to your vehicle needs.

FEATURES

Exceptional LCD

- ▶ Large and sharp, easy-to-read, high-resolution LCD screen for optimum viewing.
- ▶ Integrates comprehensive panel functionality into a single display to differentiate and enhance vehicle aesthetics.
- ▶ Rich, vivid colors, sharp imagery, strong contrast and high-color vibrancy allow the perfect palette for designing virtually any custom screen according to your application and requirements.
- ▶ Allows state-of-the-art design flexibility and progressive appearance.
- ▶ Instrument designers benefit from a beautiful and effective array of graphic capabilities, colors, shapes and lines.
- ▶ Screen customization flexibility is virtually limitless.
- ▶ Transflective LCD for clear viewing even in bright sunlight.
- ▶ Clear, crisp color LCD — 1/4 VGA, 320 x 240 (3.5" for Model 3601, 5.7" for Model 3701).
- ▶ Two color video inputs, both of which accept NTSC or PAL format.
- ▶ Message center, display menu system, password security options provide flexible and varied options to vehicle panel designers.

Universal CAN Compatibility

- ▶ Seamlessly integrates with Curtis AC vehicle speed controllers and input devices without requiring additional code to be written.
- ▶ Fully CAN compatible—CANopen.
- ▶ Interacts with any CAN node on your vehicle network.
- ▶ Options include isolated CANbus interface and an affordable CAN-only version, without the I/O feature.

enGage® VI & VII Module Only

enGage® VII with Optional Camera

Can Color Instrument

FEATURES continued

Wide Ranging I/O

- ▶ Powerful I/O capability allows for easy system integration.
- ▶ Non-CAN based digital and analog device signals in your distributed network can be converted to CAN.
- ▶ Significantly reduces the wiring requirements through the use of CANopen.
- ▶ Independent, open-drain MOSFET outputs rated 2A continuous (2 for Model 3601, 4 for Model 3701).

Powerful Customization & Programmability

- ▶ The enGage® VI & VII is a blank palette that allows the vehicle OEM to design a unique, special and fully customized panel fully suited to the application, with complete flexibility to match the instrument to the vehicle's display requirements..
- ▶ One single screen displays many functions and instrument readings based on OEM defined functional and operational system parameters and thresholds.
- ▶ Changing display parameters (i.e. maintenance parameters, time of day, etc.) and providing input (i.e. password, check list information) can be accomplished through button inputs.
- ▶ The enGage® VI & VII can be programmed with the proprietary Curtis Vehicle Control Language (VCL) from a Curtis AC controller.

Cased Unit Features

- ▶ Efficient, minimally intrusive case design for optimal use of available panel space.
- ▶ Easy "snap fit" hardware free mounting allows low installation cost and eliminates loose hardware.
- ▶ Integrated front panel gasket provides sealing between the instrument and panel, preventing moisture/dust through the panel opening.
- ▶ IP67 rated front and rear effective for a wide variety of environmental conditions.
- ▶ Rugged, heavy duty Deutsch connectors (sealed DTM series) provide reliable connections in harsh environments.
- ▶ Anti-fog/anti-glare treated, scratch-resistant, chemically strengthened glass (plastic optional) lens provides superior viewing in all environmental conditions.

Additional Advantages

- ▶ Real time clock can be used to provide data logging and real-time event time stamping.
- ▶ Greatly reduces secondary displays, circuits, systems, installation and support electronics costs.
- ▶ LCD heater option allows operation in cold climates to -40°C (normal operation to -20°C without heater).
- ▶ Wide voltage range, 12-48VDC or 60-144VDC.
- ▶ Integral audible alarm output.
- ▶ Available with the newest Curtis battery discharge algorithm for highly accurate battery state of charge information.

Can Color Instrument

SPECIFICATIONS

Environmental

Temperature Range

Operating: -40°C to +70°C

Storage: -40°C to +85°C

Cycling: Per SAE J1455 section 4.1.3.1

Shock: Per SAE J1455 section 4.1.3.2

NOTE: Deviation from SAE J1455 Aug. 95, section 5.2.1.1 maximum temperature of +85°C due to LCD module limitations. At temperatures below 0°C, the LCD heating element turns on to prevent slow display response times.

Humidity

Applicable to enclosed units only: 95% RH (non-condensing) at +38°C as per SAE J1455 Aug. 94, section 4.2.3.

Water / Dust Ingress

Applicable to enclosed units only: sealed front and rear to IP67. For models that include video option, video connector must be installed to achieve IP67 rating on rear of unit.

Anti-fog Lens

Applicable to enclosed units only.

Lens Scratch Resistance

Applicable to enclosed units only: standard is Chemically Strengthened Glass w/Anti-Glare and Anti-Fog coatings. Optional Hard-Coated Polycarbonate Lens available, which meets the Bayer and Steel wool abrasion tests.

Salt Spray Resistant Lens (Fog)

Applicable to enclosed units only.

Shock

Applicable to enclosed units only: meets SAE J1378 July 98: Amplitude 44–55g, half sine, 9–13 ms duration.

Vibration

Applicable to enclosed units only: Meets SAE J1378 July 98. Double amplitude of 1.53 mm, with frequency sweep from 10-80-10 Hz (20g max.) at intervals of 1 minute.

Can Color Instrument

SPECIFICATIONS continued

EMC Specifications

Emissions

Designed to meet EN61000-6-4:2007.

Immunity

Designed to meet the following:

- ▶ SAE J1455 section 4.11.2.2.1 & 4.11.2.2.2
- ▶ EN61000-6-2:2005, EN61000-4-2:1995
- ▶ EN61000-4-3:2006, EN61000-4-4:2004, EN61000-4-5:2006
- ▶ EN61000-6-4:2007

Safety

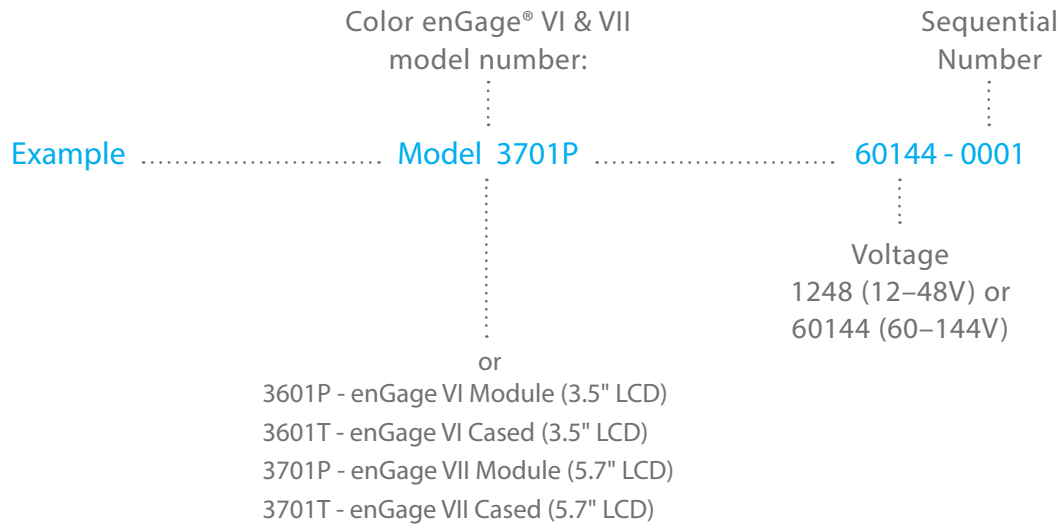

Meets EN 61010-1: 2001 Part 1: General safety requirements for measurement, control and laboratory use.

Regulatory Approvals

- ▶ RoHS Compliant
- ▶ CE Mark (pending)
Tested to meet the Low Voltage Directive (LVD) 2006/95/EC and EMC Directive 2004/108/EC. Product specification will be updated upon completion of testing.
- ▶ UL Mark (pending)
Product specification will be updated upon completion of testing.

MODEL ENCODEMENT

NOTE: All modules are supplied with critical components exposed. If the module is being used in an environment other than specified, the user must take precautions to package the module to provide adequate protection.

Mounting Options

FRONT

SIDE

BACK

NOTES:

1. Mounting: (4) Holes 3.6 mm dia.
2. LCD: Color, 320x240 (QVGA) Resolution, 70.1x52.6 mm Active Area.
 - a. Cased units include lens with anti-reflective coating.
 - b. Wide viewing angle: 100 deg vertical, 120 deg horizontal.
3. Mating Connectors:
 - J1 - AMP 770581-1, Pins 770904-1;
 - J2 - AMP 770583-1, Pins 770904-1;
 - J3 - AMP 770579-1, Pins 770904-1;
 - J4 - MOLEX 51110-0650, Pins 50394;

4. Battery Voltage (B+) to be protected by a 1 AMP fuse.
5. LCD Heater B+ to be protected by a 3 AMP fuse.
6. Connect CAN Term 1 to CAN Term 2 for 120 OHM CAN Bus Termination.
7. All modules are designed to be incorporated into a higher level

J1 Connect

SIDE

NOTES:

- Materials:
 - Case: ABS/Polycarbonate, Gray, UL94-V0.
 - Lens: Polycarbonate, Clear, Scratch-resistant, anti-reflective outer surface, anti-fog inner surface.
 - Buttons and Overmold: Black rubber.
- Mounting: Use snap fingers on panel thickness from 1.5 mm to 2.5 mm. Mounting bracket 17686370 can be used for panel thicknesses 1.5–6.0mm. Mounting bracket is designed for one installation only. Destruction of mounting bracket may occur if attempted to remove.
- LCD: Color, 320x240 (QVGA) resolution, 70.1x52.6mm viewing area. Wide viewing angle: verticle 100 deg, horizontal 120 deg.
- Mating Deutsch Connectors:
 - J1 - DTM06-12SA, Housing;
 - J2 - DTM06-12SB, Housing;
 - J3 - DTM06-12SC, Housing;
 - J4 - DTM06-12SD, Housing;
 Contacts - 0462-201-20141 or 1062-20-0122 Sockets. Wedge Lock - WM-12S. See Pinout charts.
- Battery Voltage (B+) to be protected by 1 amp fuse.
- LCD Heater B+ to be protected by 3 amp fuse.
- Connect CAN term 1 to CAN term 2 for 120 Ohm CAN bus termination.
- B+ Operating Range:
 - 3601T 1248-XXXX: 9-60V
 - 3601T 60144-XXXX: 45-180V.
- Sender Input Range: 1-10V.
- MOSFET Return must be connected to B-.
- Protection Rating IP67.

Can Color Instrument

3701P Dimensions mm

NOTES:

- Mounting: (4) Holes 3.6 mm dia.
- LCD: Color, 320x240 (QVGA) Resolution, 115.2x86.4 mm Active Area.
 - Cased units include lens with anti-reflective coating.
 - Wide viewing angle: 120 deg vertical, 140 deg horizontal.
- Mating Connectors:
 - J1 - AMP 770581-1, Pins 770904-1;
 - J2 - AMP 770585-1, Pins 770904-1;
 - J3 - AMP 770583-1, Pins 770904-1;
 - J4 - AMP 103975-5;
 - J5 - Binder 99-0405-00-03 (Unshielded) or 99-0405-10-03 (Shielded).
- Battery Voltage (B+) to be protected by a 1 AMP fuse.
- LCD Heater B+ to be protected by a 3 AMP fuse.
- Connect CAN Term 1 to CAN Term 2 for 120 OHM CAN Bus Termination.
- All modules are designed to be incorporated into a higher level assembly. The user is responsible for providing the environmental protection and mechanical support required to meet the specifications of that higher level assembly.
- B+ Operating Range: 12–48 models, 9–60VDC, 60–144VDC, 45–180VDC.
- Sender input range: 0–10V.
- MOSFET Returns MUST be connected to B–.
- Unless otherwise specified, tolerance is +/- 0.5.

ACCESSORIES

Video Splitter

- ▶ Curtis part number 18427113 camera splitter box allows direct connection between two cameras and Model enGage VII.
- ▶ Cameras are also available: PAL format – Curtis part number 17760PAL-001, NTSC format – Curtis part number 17760NTSC-001.

enGage VI and VII NOTES:

1. Materials:
 - a. Case: ABS/Polycarbonate, Gray, UL94-V0.
 - b. Lens: Glass, Clear, Scratch-resistant, anti-reflective outer surface, anti-fog inner surface. Polycarbonate lens material optional.
 - c. Buttons and Overmold: Black rubber.
2. Mounting: Use snap fingers on panel thickness from 0.8 mm to 2.5 mm.
3. Mounting bracket 17687370 can be used for panel thicknesses 2.0–8.0mm. Mounting bracket is designed for one installation only. Destruction of mounting bracket may occur if attempted to remove (See "Mounting Options" on Page 7).
4. LCD: Color, 320x240 (QVGA) resolution, 115.2x86.4mm viewing area. Wide viewing angle: verticle 120 deg, horizontal 140 deg.
5. Mating Deutsch Connectors:
 - J1 - DTM06-12SA, Housing;
 - J2 - DTM06-12SB, Housing;
 - J3 - DTM06-12SC, Housing
 - J4 - DTM06-12SD, Housing;
 Contacts - 0462-201-20141 or 1062-20-0122 Sockets.;
 Wedge Lock - WM-12S;
 See Pinout charts above.
6. Mating "Video In" Connector: Binder 99-0405-00-03 (Unshielded) or 99-0405-10-03 (Shielded). See Pinout charts above.
7. Battery Voltage (B+) to be protected by 1 amp fuse.
8. LCD Heater B+ to be protected by 3 amp fuse.
9. Connect CAN term 1 to CAN term 2 for 120 Ohm CAN bus termination.
10. MOSFET returns must be connected to B-.
11. Mating harness part numbers:
 - Connector J1: 15233014-1;
 - Connector J2: 15233014-2;
 - Connector J3: 15233014-3;
 - Connector J4: 15233014-4.

WARRANTY Two year limited warranty from time of delivery.
